

YURT ENTRANCE RAMP

Main yurt crate shown as representation. Scale is not exact.

SUGGESTED TOOLS

We recommend you source and prep your tools before heading to your site. In addition, be sure to have hard hats and first aid materials on hand.

CORDLESS DRILL

6' LADDER

MEASURING TAPE

SUGGESTED HARDWARE

We recommend using the 108" L side of the main yurt crate for your yurt ramp. Additionally, adding 5-6 pieces of 2 x 4's will create traction for your ramp.

8 x 1-1/4 in. WOOD SCREWS
